All applications received for civilian Area are made from applications received from persons who are natives of this area & if no candidate who is qualified & who is a native of the civil area is available other applications are considered. The advertisements referred to relate to the vacancies of municipal schools & also the municipal office & the service in the municipal commission stands on

a different footing to the service in Govt as it is not pensionable It may not be possible to bring the municipal vacancies within the purview of the Public service Commission for this reason Regarding other appointments in Govt. offices it is desirable to bring them under the purview of the Public Service Commission This area may however be treated as a separate unit as the grades here are different to those existing in the rest of the state

Appointments in City, Town and other minor municipalities and in the District Boards in the State are governed by the rules of recruitment. For this purpose the two City Municipalities (Mysore and Bangalore) are treated as two different units. The other offices, viz District Board, Town and other minor municipalities in a District are included in the unit of the Deputy Commissioner of the District concerned. There are several departments in the Civil Area of the Bangalore C.&.M.Station. Further, the service in the Municipality in this area is said to be non-pensionable. Even non-pensionable services in the State (Electrical and Railway Departments and all Government

Industrial Concerns) fall within the purview of the rules of recruitment. In the circumstances, the following suggestions are made:-

(1) The Collector of the area may be the Unit Officer for recruitment of the staff to al offices of his department under his control.

(2) The District Judge of the area may be unit officer for the Judicial Department like the other District Judges of the State.

(3) All other offices such as, Registration, Excise Income-Tax, Police, etc. may be brought under the units of the respective Heads of Departments of the State

(4) The President of the Municipal Commission of the area may be treated as a separate unit officer for all Municipal Services including Municipal Schools. If there are any Government Schools and Colleges in this area they may be included in the units of the Director of Public Instruction and the University respectively.
